All of our preliminary colour work will be done on rag paper. You may pick up some small stretched canvas' or wood panel strainers for some of the later projects.

FOR EITHER OIL OR ACRYLIC

If you're used to using a Strippable palette (this is the kind that has multiple sheets you can tear off and throw away), by all means continue. Personally, I prefer using white, styrofoam plates and a roll of tin foil. They're super cheap and then you can easily cover and save a palette for multiple days.

-Metal palette knife 2 or 3 inches

-3 stretched and primed canvas or strainers (wood panels mounted onto backings). These should be no smaller than 16 x 20 inches and no larger than 48 x 60 inches.!

-Cotton rags (I find old t-shirts cut down into smaller squares works best!)
